

## **2021 Executive & Directors**

---

### **President: Ann Booth**

Ann and her husband Nigel moved to Sechelt in 2016. After some commuting back and forth while working, they finally retired to the Sunshine Coast. Ann worked for a Naturopathic doctor for 25 years on the North Shore and now has the time and opportunity to enjoy a large garden. As an artist, Ann is inspired by the colours, fragrances and light of gardens so is eager to learn more. The Sechelt Garden Club is a group of people that are passionate about the same things she is. Having been a member of a Community Group for nearly 40 years, Ann is familiar with being part of a dedicated team with a common goal one of which being giving back to the community. Ann looks forward to being President of the Sechelt Garden Club for the next 2 years (2019-2020).

---

### **Vice-President: vacant**

---

### **Secretary: Dianne Tarris**

Dianne's grandmother kept a beautiful flower and vegetable garden. Dianne enjoyed helping her with the gardening and harvesting and was inspired to start her own little garden before she was 10 years old. Dianne grew up in North Vancouver, raised her children in Port Moody and commuted to downtown Vancouver for over 40 years while working a variety of roles in the Insurance business. Dianne has always found the garden to be grounding, and enjoys the rhythms and lessons of the natural world. Dianne moved to Sechelt in 2012 and joined the Garden Club to learn more about gardening in general and in the unique conditions on the Coast. Dianne enjoys the speakers and Garden Tours and is especially interested in growing all things edible and beautiful. Dianne hopes to pass on some of her gardening enthusiasm to her 12 grandchildren.

---

### **Treasurer: Muguetta MacDonald**

Muguetta enjoyed a long and successful career in Mercantile Credit working in Montreal, Toronto and Vancouver. She moved to Sechelt after her children had grown. Muguetta currently works in accounting and in her spare time enjoys nurturing a symbiotic relationship with the earth through gardening as she slowly replaces the lawn around her home with raised beds. While vacationing in France, Muguetta was introduced to biodynamic gardening which appealed to her interests in both astronomy and gardening. Muguetta enjoys life on the Sunshine Coast, the people, the community and the nature that surrounds us.

---

**Communications: Lee Tidmarsh**

---

**Membership and Newsletters: Lee Tidmarsh**

Lee and her husband John Carsley moved to Vancouver and the Sunshine Coast from Montreal in 2007 while continuing to work as physicians. Gardening has always been an enjoyable hobby for both of them. Having enjoyed membership with The Diggers and Weeders Garden Club in Montreal, they decided it was time to get involved with the Sechelt Garden Club in order to continue learning about growing plants. They have had to make adjustments in plant choices given the coastal growing climate. John takes care of the vegetables while Lee attends to the flowers and shrubs and delights in cutting the wild West Coast growth down to size. Lee looks forward to meeting the members as the Membership Director and sharing gardening experiences and ideas.

---

**Webmaster: Bob Sandison**

---

**Guest Speakers: Pat Kolterman**

Before Pat retired from teaching elementary school, she had visions of spending lots of time with her children and her grandson in their hometown of Terrace. Unfortunately, a week after retiring, her daughter moved to Kelowna and her son and grandson to Vancouver. After several years of traveling to visit them, she convinced her husband, Ken, to move to Sechelt to be closer to family. And what a wonderful move that has been! Always an avid gardener, she joined the Sechelt Garden Club in 2015 and has enjoyed meeting and learning from other gardeners. Her gardening passions are growing vegetables year round and planting with native plants and drought-tolerant perennials.

---

**Community Projects (Flower Up Sechelt!): Penny Lyle**

Penny hails from Tsawwassen where she spent 20 years as a realtor. Gardening did not seem to be on her radar, but her sellers competed for her to hold their open houses. Laughingly, she learned they not only wanted their homes sold, but loved that subconsciously she would deadhead and weed their hanging baskets and garden beds while showing their properties. In Penny's extensive travels she is always very curious about plant life, so, upon retiring she joined garden clubs in South Surrey and then Sechelt. She enjoys learning from our wonderful speakers, presenters and our own members, which has always been a joy for her.

As Director of our Community Development committee, Penny is spearheading a project to design and plant a small memorial park on the Rimrock Road end this year. In 2016, planting the rock wall surrounding the Sechelt Aquatic Centre, (after ridding it of weeds), was a great accomplishment for the SGC. For future projects, Penny always reminds our Garden Club members to keep their eyes open for little untended spots we may beautify in Sechelt.

---

**Director at Large: Gerri Randall**

Gerri joined the SGC Executive in January, 2020. We look forward to her many great ideas and contributing to an awesome group. More info to come.
